

Whamex

## Keep production lines up and running while cleaning the coolant system and sump – with **TRIM® Whamex®**.

### **TRIM Whamex.**

- Cleaning sumps and coolant systems was time consuming, dirty, and caused production shut downs – until Whamex
- Approved for use by Pratt Whitney
- Clean out: central and recycling systems, supply lines, machine tool sumps, industrial washers
- For interim, quick cleaning and periodic, comprehensive full cleaning
- Environmentally safe – **NO** phosphates, silicates, phenols, or nitrates; **NO** butyl; **NO** SARA 313 or EPA 33/50 listed ingredients

### **Whamex. Time and labor savings add up on the bottom line.**

- A Pacific Northwest manufacturer added Whamex to their large central system, then ran at full production for 20 hours. "Clean out has never been easier and the machines have never been cleaner!"
