

CLEAN 2017

TRIM

®

TOUGH on grime, GENTLE to your bottom line. TRIM® CLEAN 2017.

TRIM CLEAN 2017 – economical, heavy-duty, in-process cleaner.

- Be assured of cleaner parts
 - Economically removes heavy soils, oily residue, light rust, and RP coatings from ferrous, stamped, and drawn steels
 - Unrinsed, it provides one to two days in-process corrosion inhibition
- Lower your operational costs
 - Long bath life and low foaming – saves time and material costs
 - Recyclable using XYBEX® – save on disposal costs
- Operator satisfaction
 - **NO** solvents, borates, silicates, nitrites, or amines – means a safer workplace
 - High-powered removal of difficult soils

CLEAN 2017. CLEAN performance that pays off.

A large Midwestern roller bearing plant had been using soluble kerosene, but wanted a cleaner that was more environmentally friendly. CLEAN 2017 was their answer. Testing proved CLEAN 2017 cleaned better with far less makeup and smoke – reducing material costs by 45% and creating a healthier workplace.
