### **Charles P. Gee Joins Master Chemical Corporation as Aerospace Segment Manager**

Perrysburg, Ohio, April 16, 2008—Master Chemical Corporation has named Charles P. “Chuck” Gee to the position of Aerospace Segment Manager, responsible for managing its aerospace market and product opportunities. “Chuck Gee is eminently qualified and has an amazing breadth of experience,” said North America Corporate Accounts Group Manager, Paul G. Madden. “He is someone who is immensely capable of helping Master Chemical achieve a dominant position within the aerospace industry,” he stated. According to Paul Madden, Chuck Gee will manage the company’s national aerospace accounts, coordinate new business development activities and corporate account strategies. Mr. Gee will also direct the activities of field sales personnel and work with Master Chemical Research and Development.

Mr. Gee holds an Associate of Science in Metallurgy from Don Bosco Technical Institute, a Bachelor of Science in Metallurgical Engineering from California Polytechnic State University and an MBA from San Diego State University. Mr. Gee was the Regional Manager at Western Vacuum & Braze Technology Group, Bodycote Thermal Processing. Before joining Master Chemical, Mr. Gee was Chief Operating Officer for Stork Materials Testing & Inspection Rancho Dominguez.

#### **About Master Chemical Corporation**

Master Chemical Corporation was founded on November 13, 1951. Since then, working closely with the worldwide metalworking community, Master Chemical Corporation has developed and marketed a full line of specialty cutting and grinding fluids, cutting oils, concentrated washing and cleaning compounds, and rust preventives all under the TRIM® Brand trademark. These products are both environmentally sound and when used in conjunction with Master Chemical’s XYBEX® Coolant Recycling and Filtration Systems, are the most durable and stable products available anywhere today. Master Chemical has always been committed to the safety of the people who use its products, the protection of the planet, the environment we live in, and the overall impact on their customers’ profitability.
